

# Human-Computer Interaction 2024/2025

**Lab Class 8**

**High Fidelity Prototype**

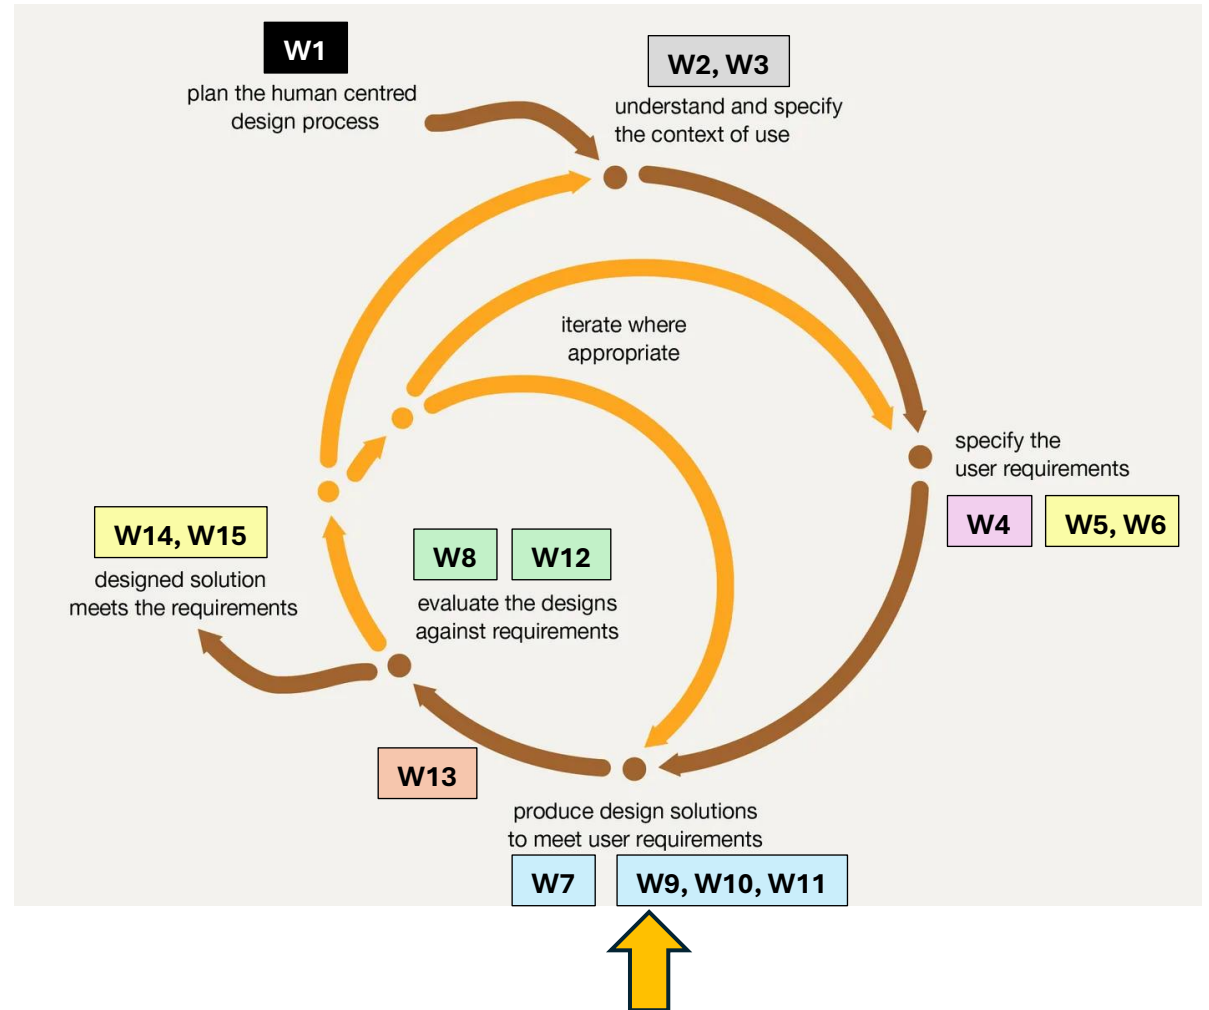

universidade  
de aveiro

**deti**

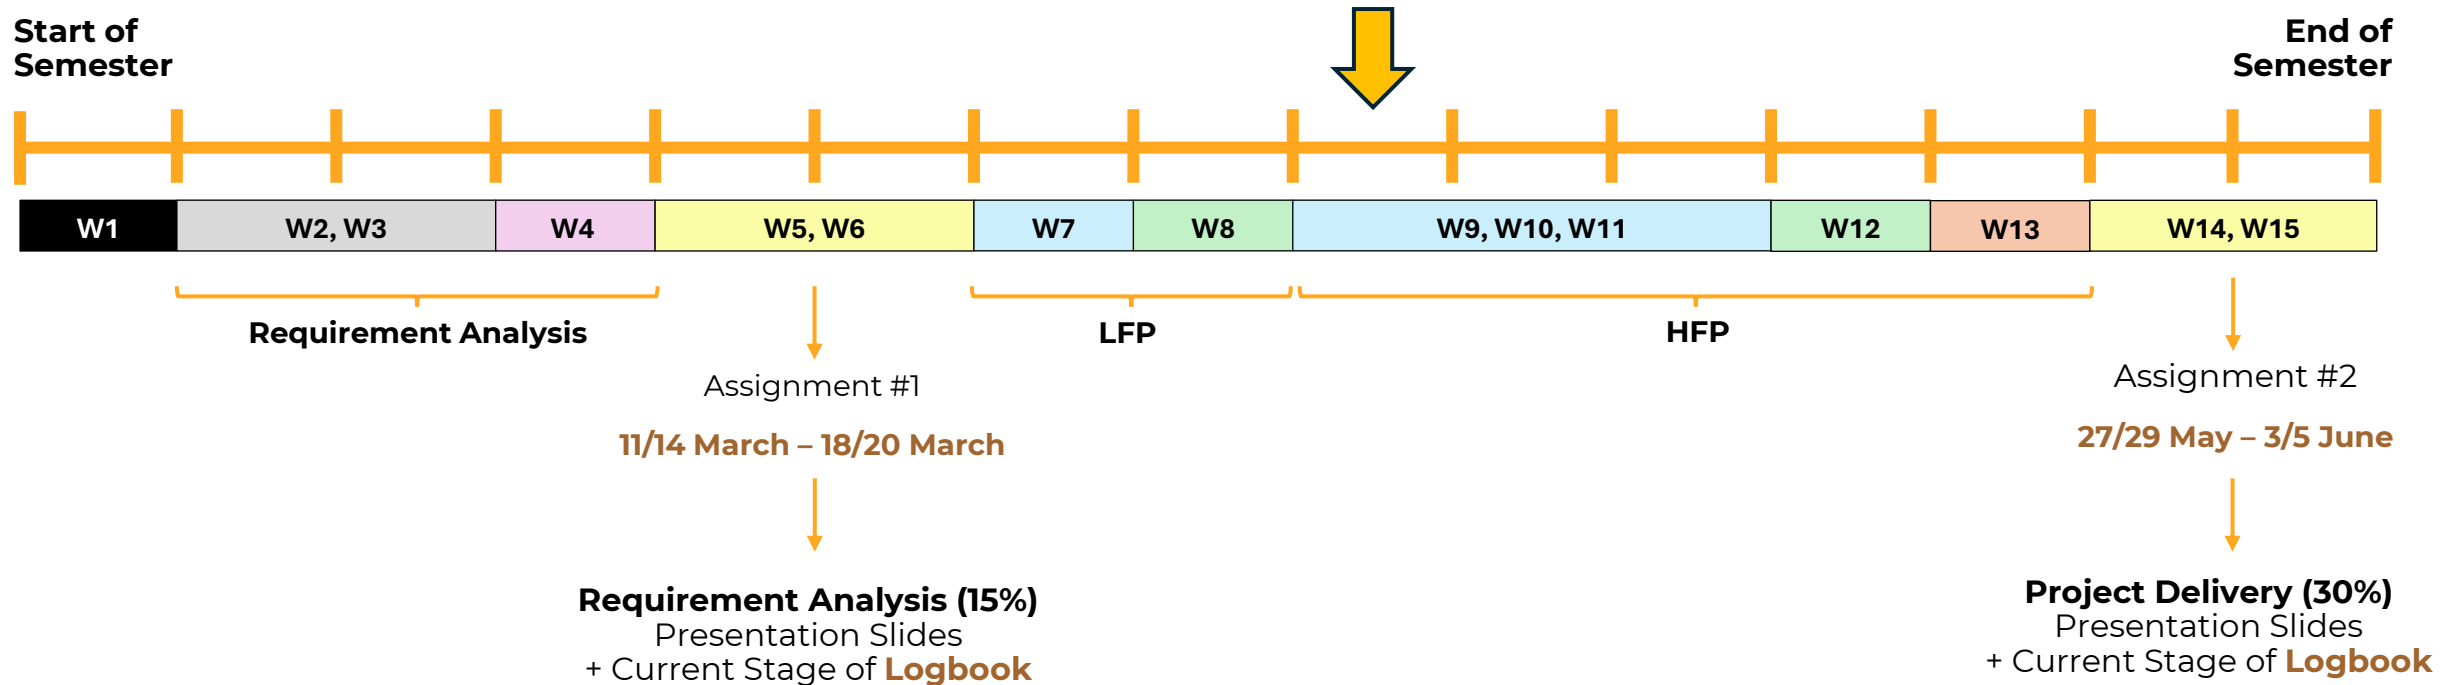

departamento de  
electrónica, telecomunicações  
e informática

# You are here!

This week, we **start** the development of the high-fidelity prototype (HFP)

# Assignments – Summary Timeline

# Tasks for the next three classes

Use the **LFP** as the starting point

Develop a digital version of the interfaces (you choose the framework, but validate the choice with teacher)

Focus on the main tasks your solution should fulfil

**In three classes, you will evaluate the HFP with your colleagues (W12 - May 13/15), and use the feedback collected to conduct improvements before the final presentations.**
